

Beam

SONOS

The smart, compact
soundbar for your TV.

Rich, detailed sound.

Put yourself at the center of movies, shows, music and games with rich, detailed sound that fills the entire room.

Balanced Sound

Four elliptical full-range woofers and one tweeter harmonize low and high frequencies. Three passive radiators intensify and deepen bass, eliminating the need for an accompanying subwoofer.

Compact Size

At only 25.6 inches long, Sonos Beam won't hang off furniture, block the TV or overwhelm your space.

Play music hands-free. Everyone can do it

Control music, podcasts and more with Amazon Alexa and Siri. Noise cancellation and beamforming technology make sure you're heard, even when the music is blasting.

*Your Sonos Beam must be connected via HDMI ARC to control your TV with Alexa.

Tech Specs

4 elliptical full-range transducers
1 tweeter
3 passive radiators
Phased speaker array spatialization
Seamless, wrap-around fabric grille
5 microphone array
