

Case Study - Home Generator

“Greenbrier Electric products and services gave us the comfort we were hoping to find. The maintenance program satisfies all our concerns. The complete process was professional, timely and satisfactory.” - Stuart Margolin, Home Owner

Greenbrier Technologies Delivers Back-Up Generator Solutions to give peace of mind 24/7

The Situation

Mr. Margolin wanted a back-up power source to give his family the comfort of knowing that no matter what the weather was or how unexpected the circumstances, his power would be preserved.

The Challenge

Mr. Margolin needed a reliable company, who had generator installation experience, the brand dependability and durability of GENERAC, and the ability to not only install but also provide annual maintenance, all at an affordable price.

The Solution

Greenbrier Electric provided Mr. Margolin the peace of mind he desired with the equipment he trusted. “Our research led us to believe Greenbrier was the best company to deal with in regards to a home generator.”
- Stuart Margolin

The Results

Mr. Margolin leveraged Greenbrier Electric's Annual Maintenance Program (AMP) to ensure that he can count on his generator to be serviced and ready to work when needed, whether he is home or away. The AMP program is second to none, providing insurance that his generator will be ready to run during emergencies like the flood of 2016.
